SUMMARY

Dedicated software engineer experienced in crafting data-driven solutions for startups to large corporations. Skilled in serverless technologies, and tools like Typescript, NodeJs and ReactJs. Eager to tackle challenges with a track record in CI/CD and website optimization, consistently delivering impactful outcomes.

PROFESSIONAL EXPERIENCE

HUBOO

Bristol, UK

Software Engineer

Apr 2022 – Present

- Works as a Software Engineer in the Product team, following Agile/Scrum methodologies and employing Test-Driven Development (TDD) principles.
- Worked on different portals for both clients and warehouse staff.
- Worked on serverless technologies like AWS lambda, API and microservices design, deployment automation and CI/CD patterns.
- Worked with languages/tools like Typescript, NodeJs, Serverless Framework, Laravel, SQS, SNS, DynamoDB, VueJs and MySQL during this period.

PAYTRIOT PAYMENTS

London, UK

Software Developer

Sep 2021 – Mar 2022

- Worked closely with the Design team in redesigning the internal tools.
- Contributed to the codebase of a legacy product, implementing API integrations, and developing plugins.
- Worked with the sales team and marketing team to help out the partners. Rebuilt the existing website in NextJs and improved the performance massively.
- Set up CI/CD pipelines from the beginning to ensure efficient software deployment.
- Worked with languages/tools like Typescript, NodeJs, PHP, ReactJs, NextJs, Gatsby, MongoDB and Wordpress during this period.

ESPER.IO

Bangalore, India

Software Engineer

Oct 2019 – Sep 2020

- Worked in the UI dashboard that deals with device provisioning and configuring - mobile device management solution platform for enterprise and developers.
- Internationalised(i18n) the existing website. Built the base framework and wrote automation scripts for other developers/non-developers to create pages in different languages quickly.
- Single handedly built one of the top used features, ie. devices list views with actions, filters, sorting and other functionalities and was promoted from an intern to a Software Engineer.
- Worked with languages/tools like Typescript, ReactJs and Gatsby during this period.

EDUCATION

QUEEN MARY UNIVERSITY OF LONDON

London, UK

Master of Science (MSc) in Computer Science

APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY

Kochi, India

Bachelor of Technology (BSc equivalent) in Computer Science and Engineering
